

## Countdown Timer Installation Guide

### Installation

1. First of all, back up your store database and web directory. It is wise to perform this procedure before any installation.
2. On your back end, go to **System** → **Magento Connect** → **Magento Connect Manager** and log in to Magento Connect Manager with administrator credentials.
3. Under “Direct package file upload” section, browse for package file and hit “Upload”.

The screenshot shows the Magento Connect Manager interface. The 'Direct package file upload' section is highlighted with a red box. It contains the following elements:

- Step 1: Download or build package file.
- Step 2: Upload package file. A red arrow points to the 'Browse...' button, and another red arrow points to the 'Upload' button.

Other visible elements include the 'Settings' section with a checked box for 'Put store on the maintenance mode while installing/upgrading/backup creation' and a dropdown menu for 'Create Backup' set to 'Database'. The 'Install New Extensions' section has a search field and an 'Install' button. The 'Manage Existing Extensions' section has a 'Check for Upgrades' button and a 'Commit Changes' button. At the bottom, there is a 'Channel: Magento Community Edition' label and a checkbox for 'Clear all sessions after successful install or upgrade:'.

4. Return to website back end, log out and then log in again.
5. Flush Magento Cache under **System** → **Cache Management**.
6. Congratulations! You are now ready to use **Countdown** extension.

## Configuration/Usage

### Adding Countdown Timer via Catalog Price Rules

You can apply timers to a bunch of products using default Magento Price Rules. Go to **Promotions** → **Catalog Price Rules** and create a new rule by clicking “Add New Rule” button.

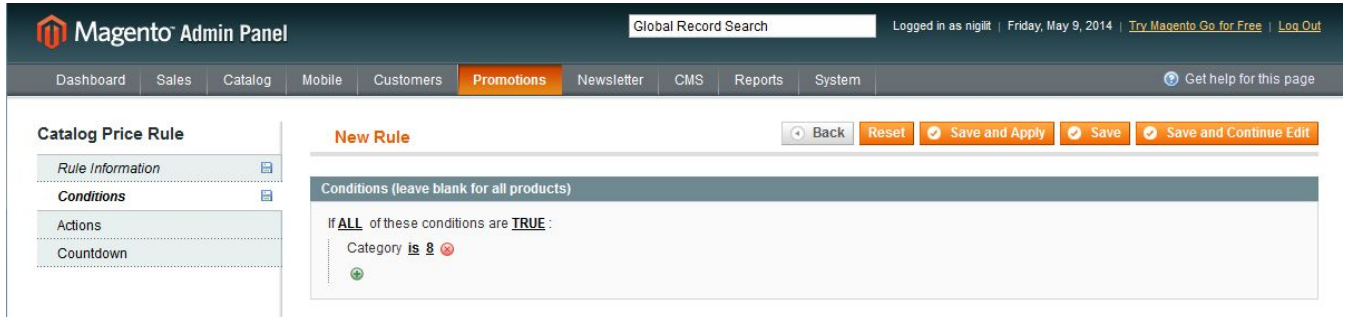

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. The 'Promotions' menu is highlighted, and a dropdown menu is open, showing 'Catalog Price Rules', 'Shopping Cart Price Rules', and 'Countdown Timers'. The 'Add New Rule' button is visible in the top right corner. Below the navigation bar, the 'Catalog Price Rules' page is displayed, showing a table with columns for ID, Rule Name, Date Start, Date Expire, Status, and Website. The table is currently empty, and the message 'No records found.' is displayed at the bottom.

1. Enter the general rule information:

The screenshot shows the 'New Rule' form in the Magento Admin Panel. The form is titled 'New Rule' and includes a 'Back' button and several action buttons: 'Reset', 'Save and Apply', 'Save', and 'Save and Continue Edit'. The form fields are as follows:

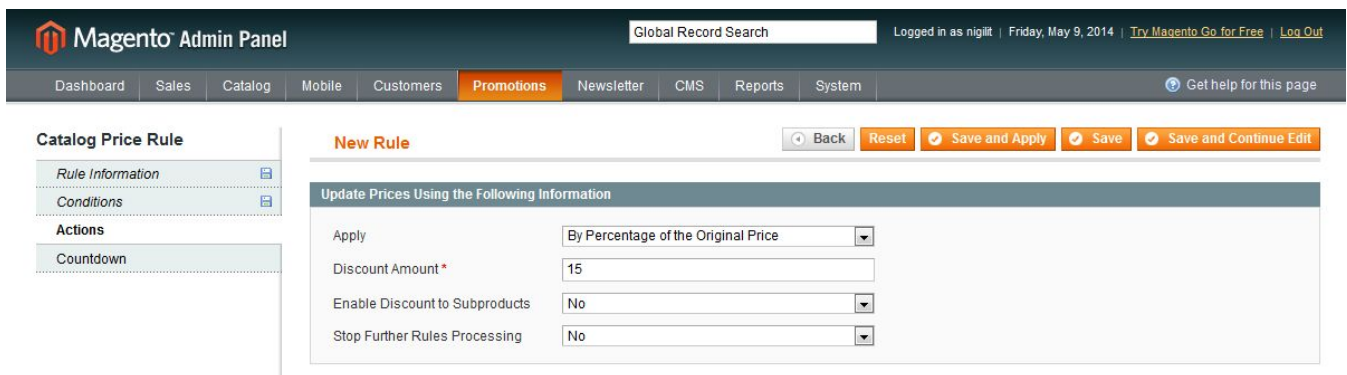

- Rule Name \***: Mega Sale
- Description**: (Empty text area)
- Status \***: Active
- Customer Groups \***: NOT LOGGED IN, General, Wholesale, Retailer, QAAAA
- From Date**: 05/7/2014
- To Date**: 05/17/2014
- Priority**: (Empty text field)

## 2. Enter required conditions on Conditions tab:

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions' (highlighted), 'Newsletter', 'CMS', 'Reports', and 'System'. The left sidebar shows 'Catalog Price Rule' with sub-tabs for 'Rule Information', 'Conditions', 'Actions', and 'Countdown'. The main content area is titled 'New Rule' and features buttons for 'Back', 'Reset', 'Save and Apply', 'Save', and 'Save and Continue Edit'. The 'Conditions' section is active, displaying the text 'Conditions (leave blank for all products)' and 'If ALL of these conditions are TRUE:'. A single condition is listed: 'Category is 8'.

## 3. Enter the discount amount:

The screenshot shows the same Magento Admin Panel interface as above, but with the 'Actions' tab selected in the sidebar. The main content area is titled 'New Rule' and features the same set of buttons. The 'Update Prices Using the Following Information' section is active, showing a table of configuration options:

Update Prices Using the Following Information	
Apply	By Percentage of the Original Price
Discount Amount *	15
Enable Discount to Subproducts	No
Stop Further Rules Processing	No

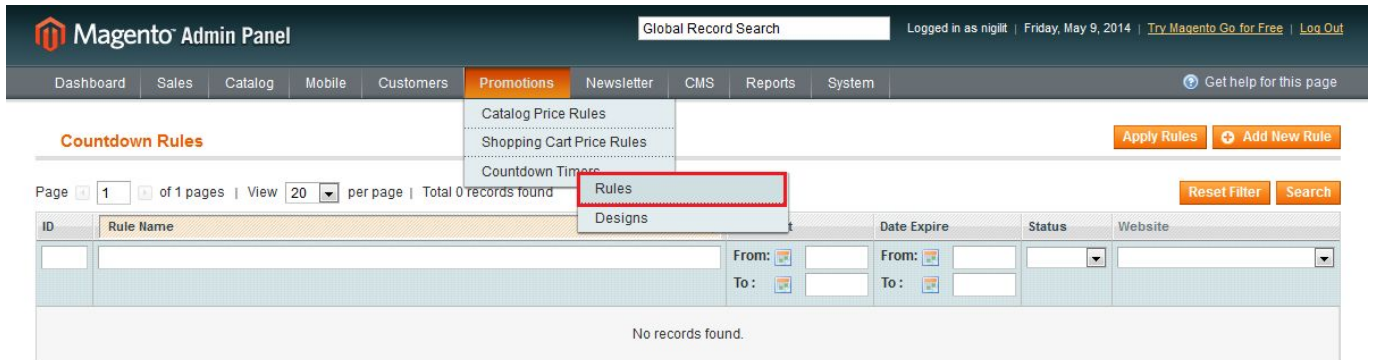

4. Enter timer title and select timer design on Countdown tab:

The screenshot displays the Magento Admin Panel interface. At the top, the 'Magento Admin Panel' header includes a search bar and user information. The navigation menu shows 'Promotions' as the active section. On the left, the 'Catalog Price Rule' sidebar is visible, with 'Countdown' selected. The main content area is titled 'New Rule' and features several action buttons: 'Back', 'Reset', 'Save and Apply', 'Save', and 'Save and Continue Edit'. The 'Countdown' configuration section includes a 'Status' dropdown set to 'Enabled', a 'Countdown Title' field with the text 'Discount expires in:', and a 'Url' field with a placeholder example. Two timer design options are presented: 'Orange35 default style 4 big' (featuring large circular digits for years, months, days, hours, minutes, and seconds) and 'Orange35 default style 4' (featuring smaller circular digits for days, hours, minutes, and seconds).

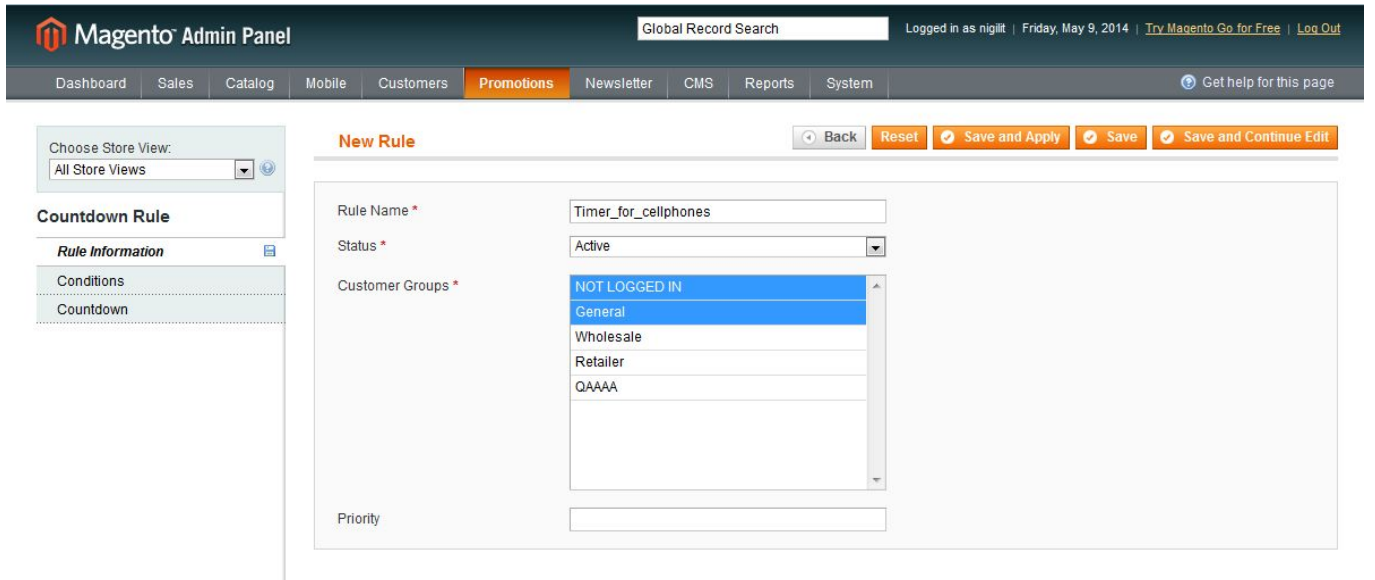

5. Press "Save and Apply" button

## Adding Countdown Timer via Countdown Rules

You can apply timers to a bunch of products using own Countdown Rules. Go to **Promotions** → **Countdown Timers** → **Rules** and create a new rule by clicking “Add New Rule” button.

### 1. Enter the general rule information:

## 2. Enter required conditions on Conditions tab:

The screenshot shows the 'New Rule' configuration page in the Magento Admin Panel. The 'Conditions' tab is active, showing a rule condition: 'If ALL of these conditions are TRUE: Category is 28'. The left sidebar shows the 'Countdown Rule' configuration options: 'Rule Information', 'Conditions', and 'Countdown'. The top navigation bar includes 'Promotions' and other system menus.

## 3. Enter timer title, select usage date and timer design on Countdown tab:

The screenshot shows the 'New Rule' configuration page in the Magento Admin Panel, now on the 'Countdown' tab. The configuration includes: 'Countdown Title' (Will be available in stock in:), 'Use Date \*' (Custom Date), 'Start Date' (05/10/2014), 'End Date \*' (05/24/2014), 'Uri' (Example: http://example.com), 'Timer Design for Product Page' (Orange35 default style 2 big), and 'Timer Design for Catalog Page' (Orange35 default style 2). The left sidebar shows the 'Countdown Rule' configuration options: 'Rule Information', 'Conditions', and 'Countdown'. The top navigation bar includes 'Promotions' and other system menus.

## 4. Press "Save and Apply" button

## Adding Countdown Timer for individual product

You can apply timers to each product individually from product edit page. Go to **Catalog** → **Manage Products** → **<Product Name>** → **Countdown**

The screenshot displays the Magento Admin Panel interface for editing a product. The breadcrumb trail is: **Catalog** → **Manage Products** → **HTC Touch Diamond (Cell Phones)** → **Countdown**. The page title is "HTC Touch Diamond (Cell Phones)".

**Countdown Configuration:**

- Status:** Enabled [GLOBAL]
- Countdown Title:** Discount will be applied in [STORE VIEW]
- Use Date:** Custom Date [GLOBAL]
- Start Date:** 05/10/2014 [GLOBAL]
- End Date:** 05/14/2014 [GLOBAL]
- Url:** [STORE VIEW] (Example: <http://example.com>)
- Timer Design for Product Page:** Orange35 default style 3 big [STORE VIEW]. The timer display shows 00 DAY, 00 HRS, 00 MIN, 00 SEC.
- Timer Design for Catalog Page:** Orange35 default style 3 [STORE VIEW]. The timer display shows 00 DAY, 00 HRS, 00 MIN, 00 SEC.

**Product Information Sidebar:**

- Choose Store View: Default Values
- General
- Prices
- Meta Information
- Descriptions
- Images
- Cell Phone Attributes
- Design
- Recurring Profile
- Gift Options
- Inventory
- Websites
- Categories
- Related Products
- Up-sells
- Cross-sells
- Product Reviews
- Product Tags
- Customers Tagged Product
- Custom Options
- Countdown**

## Design Configurator

Unique design can be configured for each timer and the design amount is unlimited. To create a new or to change already existed timer design, go to **Promotions** → **Countdown Timers** → **Designs**:
